

To our valued patients and their families,

We are dedicated to providing a healthy and safe environment for all who visit our campus. As we continue to face the challenges of COVID-19, we must take extra steps to protect our patients, staff, visitors, and the community we serve. Huntington Hospital has developed detailed visitation guidelines that balance the comfort of our patients and their families with the ongoing need for safety measures.

Our full visitor policy, including current COVID-19 vaccination status requirements, can be found at [www.huntingtonhospital.org/visitors](http://www.huntingtonhospital.org/visitors). For your convenience, a QR code leading to this website is included at the bottom of this page. Please note that some areas within the hospital have separate visitation policies. Review this important information carefully before checking in with a lobby attendant.

**Important visitor information:**

- Huntington Hospital follows current California Department of Public Health (CDPH) orders regarding vaccination requirements for visitors. For a full list of accepted proof of COVID-19 vaccination per CDPH orders, scan the QR code below.
- Visitors to the Emergency Department will only be required to show proof of vaccination or a negative COVID-19 test if their loved one is admitted.
- No visitors are allowed for COVID-19 positive patients or patients with a pending COVID-19 test.
- Visitors must keep their masks on and always maintain a physical distance of six feet.
- To ensure that our hospital remains a place that our caregivers and staff can work safely during this challenging time, disruptive individuals will be asked to leave campus.

To remain responsive to the ever-changing pandemic, we update visitation guidelines often. I suggest that you check the website prior to your arrival each day.

I appreciate your patience and cooperation with these important health and safety measures. Our goal is to protect you, our patients, and our staff. Thank you for entrusting your loved one's care with us.

Sincerely,

Lori J. Morgan, MD, MBA
